### ESP's Resource As A Service offers benefits such as:

<b>Speed of recruitment</b>	<b>Offshore capability</b>	<b>Remove performance management headaches</b>
<b>Single point of contact for global services</b>	<b>Flexibility</b>	<b>Expand existing service portfolio within your customer base</b>

### Our workforce adapts to your needs

We can help you boost the flexibility of your capabilities by bringing in new skills on demand. We provide credible, experienced and qualified professionals, and can manage backfill requirements to keep your team running smoothly at all times, covering sickness, holidays and prolonged absences.

### Track, monitor and manage global teams

Our managed workforce ensures you can meet business objectives without unnecessary disruption to your day-to-day operations.

We provide functional support such as attendance tracking, remote monitoring and management tools – to allow you to focus on your regular operational management tasks.

### Highly trained, vetted engineers

We work with smart, forward-thinking professionals, and ensure that they all receive high-quality training to provide you with the best service. To avoid unnecessary delays our engineers are vetted and security cleared to the requirements of your location.
